

## **Logo Animation**

### **All singing, all dancing**

We are dedicated to creating a distinctive logo that conveys your company's personality to the world. And now, optional animation adds an extra dimension to your logo that helps to build your brand and draw attention to your product and your message. Your logo represents you. Don't take shortcuts when creating it. We can give you the professional logo your brand deserves.

## **3D Animation**

### **The next dimension for your brand**

3D animations help you breathe new life into your media. 3D animation provides another method for enhancing any presentation when incorporated into websites, emails, PowerPoint presentations, or video productions. 3D animation is the creation of moving pictures in a three-dimensional digital environment. This is done by displaying, in rapid succession, a consecutive sequence of images, or "frames," and thereby creating the visual perception of motion.
